

Our 3 part base nutrients system delivers unparalleled results at all stages of growth.

GROW: 2-1-6 BLOOM: 0-5-4 MICRO: 5-0-1

♠ BASE NUTRIENT

VEGETATIVE STAGE

FLOWERING STAGE

O LIOUID FERTILIZER

WHAT IT IS

This 3-Part Base Nutrient System consists of a combination of primary, secondary and micronutrients in three separate formulas.

HOW IT WORKS

GP3 Grow provides your plants with the optimal nutrients they require throughout the vegetative stage of growth. This stage is when your plants develop leafy green foliage and a strong root system that will be able to support flowering sites during the bloom stage.

GP3 Bloom is a component of the GP3 nutrient system that provides your plants with the essential nutrients they need throughout the flowering stage of growth. This stage is when your plants start to fruit and produce flowers until it is time for harvest.

GP3 Micro is the component of the GP3 nutrient system that provides your plants with the essential and supplemental micronutrients they need in the grow and bloom stages of growth.

All our formulas contain no synthetic dyes and only uses high quality, ethically sourced ingredients to ensure your plants are getting the highest quality nutrients possible

HOW TO USE IT

GP3 requires Grow, Micro, and Bloom for the best results. Refer to the feeding chart for application rates during each stage of plant growth. Mix each product individually into the reservoir, check the PPM and pH and adjust accordingly.

CAUTION: Combining GP3 components together in undiluted form may cause a nutrient lockout. Always mix into the reservoir separately.

GUARANTEED ANALYSIS
Total Nitrogen (N) 2.0%
0.25% Ammoniacal Nitrogen
1,75% Nitrate Nitrogen
Available Phosphate (P,O,)1.0%
Soluble Potash (K,O)
Magnesium (Mg)
0.5% Water Soluble Magnesium (Mg)
Sulfur (S)
0.7% Combined Sulfur (S)
Copper (Cu)
0.006% Chelated Copper (Cu)
Molybdenum (Mo)
Derived from: Potassium Sulfate.
Potassium Nitrate, Monopotassium Phosphate,
Dipotassium Phosphate, Magnesium Sulfate.
Magnesium Nitrate, Ammonium Sulfate, Ammonium
Phosphate, Copper EDTA, Ammonium Molybdate.
