IDEAL FOR THE MEDICAL GROWER**

1 PART STARTER KIT

-  LIQUID FERTILIZER
-  ADDITIVE NUTRIENT
-  VEGETATIVE STAGE
-  BASE NUTRIENT
-  FLOWERING STAGE

WHAT IT IS

Medi One is an organic, complete 1 part base nutrient that can be used throughout the grow and bloom stages. Formulated for the organic medical grower, this base nutrient is combined with our additives to help your plants reach their full potential.

HOW IT WORKS

Our 1 Part Medi One Starter Kit comes with the nutrients you need to grow from the seed to harvest. Medi One is our complete 1 part base nutrient that has a fully balanced blend of all-natural ingredients that produce vigorous growth in the vegetative stage and resinous aromatic flora production in the flowering stage. Massive Bloom Formulation is our premier flowering additive designed to encourage budding, help facilitate bulking, and the ripening of flowering plants. Rezin is our terpene enhancer formulated to enhance the natural processes within flowering plants that produce flavour and aroma. Liquid Weight is our blend of simple and complex carbohydrates that support the plant and beneficial microbial life in the root zone. This leads to an increase in the absorption of essential nutrients that help develop impressive aromatic flowers and fruits. Ocean Magic provides a wealth of natural ingredients that support several functional properties such as, rooting, reduction of environmental and plant stress, as well as the increase of overall vitality within your plants.

HOW TO USE IT

This kit includes the necessary nutrients to follow the Medi One Feed Program. Refer to the Medi One Feed Program for application rates during each week of plant growth for each product.
