

**BRING MORE CONTROL AND
DIVERSITY TO YOUR GROW WITH
OUR COMPLETE 4 PART NUTRIENT
STARTER KIT**

4 PART STARTER KIT

-  LIQUID FERTILIZER
-  ADDITIVE NUTRIENT
-  VEGETATIVE STAGE
-  BASE NUTRIENT
-  FLOWERING STAGE

WHAT IT IS

The 4 Part Hydro Fuel Starter Kit is our convenient nutrient kit for growers wanting more control in their garden. This kit comes with Hydro Fuel and a selection of our finest additives to boost your yield and flower output.

HOW IT WORKS

Our 4 Part Hydro Fuel Kit comes with the nutrients you need to grow from the seed to harvest. Hydro Fuel is designed to allow for more control and intricacy in your feeding regimen during the vegetative stage of growth. It provides the necessary differential between the grow and bloom cycles with 2 parts for the vegetative and flowering stage. Massive Bloom Formulation is our premier flowering additive designed to encourage budding, help facilitate bulking, and the ripening of flowering plants. Rezin is our terpene enhancer formulated to enhance the natural processes within flowering plants that produce flavour and aroma. Liquid Weight is our blend of simple and complex carbohydrates that support the plant and beneficial microbial life in the root zone. This leads to an increase in the absorption of essential nutrients that help develop impressive aromatic flowers and fruits. Vitathrive Propagation Solution is our comprehensive additive blend of vitamins and minerals formulated for the vegetative stage of plant growth. It is designed to reinforce plant health and support essential functions.

HOW TO USE IT

This kit includes the necessary nutrients to follow the Hydro Fuel Feed Program. Refer to the Hydro Fuel Feed Program for application rates during each week of plant growth for each product.

FOR USE IN

HYDROPONICS

DRAIN TO WASTE

RECIRCULATING

SOIL / SOILLESS
